BLANK CARTRIDGES USED

Problems of Warfare Went Glimmer ing After Hours of Hard "Fighting" in Sand Hills.

Rifle Range Camp, Virginia Beach, Va. Aug. 6.—The game of mimic war con-tinued today, with a sham battle under the direction of officers of the regular army and the militia.

The big sham battle came off at the camp today, when 20,000 rounds of blank

cartridges, which have been zealously guarded since the militia came to camp, were passed around to the guardsmen. The men of the entire regiment were divided into opposing forces, and for hours they crept, and charged, and volleyed at each other in the game of mimic war. According to all the rules of warfare, the damage they did to each other was inestimable. The tactical theorists declared the "dead" were strewn thick be-tween the sandhilis, but all the un-imaginative observer could see in the way of casualties were some 43 mosquito bites and some scratches from the briers.

Cooks Ended Battle.

This went on all morning, until the camp cooks broke up the "battle" with the call to dinner. Peace advocates de-siring to bring the European war to a uick termination, might observe some thing to their interest in the call to din-
